

FY 2003 TRANSPORTATION CAPITAL PROGRAM
New Jersey Department of Transportation Projects

ROUTE/PROGRAM

Project ID Number

Allaire Airport

00305

This is a joint funding effort (federal/state/local) which will enable Monmouth County to purchase the Allaire Airport. This purchase will assure the uninterrupted operation of the airport, as well as spur continued industrial and commercial growth in Wall Township.

This is a multi-year funded project under the provisions of Section 13 of P.L. 1995, c.108.

COUNTY: Monmouth

MUNICIPALITY: Wall Twp.

ROUTE/PROGRAM

Project ID Number

CR 635/537 Ark Road and Marne Highway

D9901

Intersection improvements at Ark Road (CR 635) and Marne Highway (CR 537)

In the area of the improvement, Ark Road is a two-lane road. Southbound Ark Road will be widened to provide an exclusive left-turn lane. Northbound Ark Road will have a four-lane section comprising of exclusive right, left and through lanes. Marne Highway will be widened to accommodate exclusive left-turn lanes from both directions. The at-grade railroad crossing will be reconstructed with all new railroad apparatus. Ark Road will be realigned and re-profiled to provide a safe operating speed of 45 miles per hour.

ROUTE/PROGRAM

Project ID Number

Delaware River Tram

98553

Aerial tram from Camden Waterfront to Penns Landing, Philadelphia

The Delaware River Port Authority (DRPA) will design and construct an aerial tramway over the Delaware River. The intent is to create a mode of transporting visitors between destinations at the Camden and Philadelphia waterfronts. The tram infrastructure will consist of terminals in Philadelphia and Camden and a cable system suspended between two tower structures to be constructed in the Delaware River. The tram will be able to transport as many as 3,000 people per hour in eight-person gondolas suspended from the cables at a height of 160 feet above the Delaware River.

The federal Transportation Equity Act for the 21st Century (TEA-21) provided funding for this project under Section 1601, High Priority Projects Program. The Act allocated \$8.0 M for this project. FY 2000 and FY2001 RABAs have increased the total authorization amount to \$8,210,675.

<i>ROUTE/PROGRAM</i>	<i>Project ID Number</i>
Kapkowski Road	9324

Kapkowski Road, North Avenue and Trumbull Street, planning study

The county of Union recognizes that a Comprehensive Transportation Planning Study of the Kapkowski Road, North Avenue and Trumbull Street area is needed to examine and evaluate existing and proposed transportation improvements. It is critical that new and proposed developments in the area, as well as existing land uses, have specific transportation infrastructure improvements outlined prior to further construction. It is also important that an overall plan be put in place to ensure that the transportation system (which includes highway, transit and pedestrian elements) functions effectively. This effort will encompass an evaluation of current conditions, an analysis of proposed developments and transportation improvements, the preparation of an overall circulation plan and a Comprehensive Transportation Planning Study. This comprehensive study will recommend a phased series of transportation improvements needed for the area and provide concept/feasibility design on key projects so that they can become part of the NJDOT and NJTPA project pipeline. This comprehensive planning study will provide a much needed transportation planning framework which is now a major focal point in the Union County TDD.

The federal Transportation Equity Act for the 21st Century (TEA-21) provided funding for this project under Section 1601, High Priority Projects Program. The Act allocated \$2.0 M for this project. FY 2000 and FY2001 RABAs have increased the total authorization amount to \$2,052,669.

Union County Traffic Signal Modernization

N0004

Signalized traffic intersections throughout the City of Rahway

The City of Rahway currently contains 21 signalized intersections. The traffic signal equipment at many of these intersections is outdated and does not meet current design standards. A study is currently being performed to identify the current condition of the existing traffic signal equipment at each of these intersections to preliminarily identify the necessary improvements to meet current design standards as well as determine the associated costs. It is envisioned that the county will utilize this study as a menu to prioritize which signalized intersections to improve once funding is made available. These improvements may range from complete replacement of existing equipment to a mere restriping of an intersection dependent on the condition of each individual intersection.

<i>ROUTE/PROGRAM</i>	<i>Project ID Number</i>
Wilson Road Bridge	L165

Wilson Road over tributary from Bell's Lake to the South Branch Timber Creek, bridge replacement

This two-lane bridge carries an AADT of about 8,400 vehicles. The bridge is on an off-system local road. The current sufficiency rating of the bridge is 2.0. The improvements include replacing the existing bridge over Bells Lake Branch and realigning Wilson Road to lessen its curvature to the bridge approach. Improvements will extend from the Woodbury-Turnersville Road at the eastern end of the project, to a point about 130 feet west of the existing bridge. The improvements are being developed through the Local Scoping process.
